Still More Coupons Were Cast Yesterday

ONLY THREE MORE DAYS REMAIN TO CLIP COUPONS

NO EXTRA VOTE

Each Issue Until Contest Closes Will Have Only One Coupon Counting 10 Votes.

STANDING OF CANDIDATES

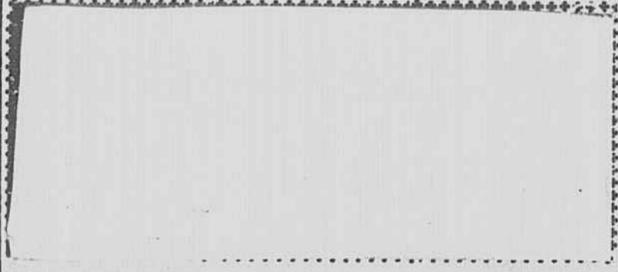

- Miss Raymond Burdine... 2,840
- Miss Lou Ellen Ligon... 2,700
- Miss Frances Tribble... 1,120
- Miss Carrie Fretwell... 1,110
- Miss Lola Dell Ramsey... 310

From the above it will be seen that the contestants in the Beauty Contest are making a close run and that the people of the city seem to be rather divided as to who they want to select to represent Anderson county in the state-wide contest to select the most beautiful girl in South Carolina to preside over the Harvest Jubilee in Columbia the latter part of October in connection with the Gtate Fair.

All in all, the votes cast yesterday were greater in number than those voted any previous day, and this will probably be the case until the contest closes.

We call attention to the fact again that Tuesday of next week is the last day of the contest. Including today, there is only three more days the paper is published, and therefore only three more days that coupons may be clipped which will entitle the contestant to 10 votes each.

No extra vote coupons will be put on in this contest and the coupons for every day until the close will count only 10 votes.

WORK WAS BEGUN AT THE ANDERSON MILLS

OPERATIONS RESUMED AFTER BEING CLOSED TWO WEEKS

NO VACATION Owing to Fact That Mill Has Been Closed Two Weeks, no Holiday Will Be Given.

Following an announcement made by the management of the Anderson Cotton Mills on last Monday, after petitions had been submitted asking that the mill start up again, operations were begun yesterday morning at 6 o'clock. There were no demonstrations and the day passed off very quietly.

It will be remembered that exactly two weeks ago yesterday, the weavers and carders at the Anderson Mills went on a strike for higher wages, thus necessitating the closing down of the entire mill.

After several days a petition was circulated and signed to the effect that the mill's re-ume operations on yesterday morning. A committee presented this petition to President Hammet, and after a hearing from the members of his committee, Mr. Hammet announced that the mill would start up again yesterday.

Many of the operatives are still out of the city visiting but most of them will return by Monday morning. A holiday was scheduled to begin yesterday but owing to the fact that the mills have been closed two weeks, there will be no vacation time given.

The Desires of the Farm Women.

Among the requests and suggestions for government aid—which I quote literally—were calls for a law to make a farmer go shares with his wife, or else pay her one dollar a day for her work; for dress makers, vacuum cleaners, washing machines, dishwashing machines, teachers with horse sense, a better grade of tea, coffee, and dried fruit at country stores, a traveling government doctor, a traveling government nurse, electric lights and trolley lines for isolated farms, cook books, books of fiction, traveling schools and traveling libraries, illustrated lectures, "movies" and phonograph concerts sent around to the farms, a better knowledge of rural sanitation, better supervision of children at the "little red schoolhouse," both in points of morals and health; a system of rural transportation for school children on the same free basis as rural free delivery; a law that will prevent men from lingering in the country store instead of going straight home with what they were sent for. Said one discouraged woman, "What's the use of buying more land to raise more corn to feed more hogs to buy more land?" Many women complained of excessive rates of farm loans, showing the greater number of letter writers lived on heavily mortgaged farms. One woman summed up the situation by saying, "What we really need most is plenty of ready money," and another hit the nail squarely on the head when she said, "It seems to me it all depends on the kind of man we live with." A Georgia man wrote in place of his wife, saying "Send us some cook books, the women down here use too much grease in preparing their meals." Now and then came a letter from a contented woman, but comparatively few seemed satisfied with either their surroundings or their "men folks." "The Woman with the Hoe," by Mrs. George F. Richards in National Magazine for June.

ELEVEN YOUNG MEN STOOD EXAMINATION

Two Vacancies to Citadel Were Contested for Yesterday—Cover all Expenses.

Eleven young men yesterday took the examination for entrance to the Citadel, Charleston, and to decide the awarding of two vacant scholarships in Anderson county. The examination was held by Supt. J. B. Felton in the court room. The two scholarships are worth something over \$1,400, since they include all expenses for four years.

Supt. Felton stated yesterday that he was expecting more young men to take the examination than did appear. Several others had been in his office from time to time to inquire about the examination but did not show up yesterday.

Those standing the examination were: Messrs. Sam Earle, Townville; T. C. Cannon, Honea Path; George Bowie, Starr; Ralph Welborn, Henry Cook, Frank Steele, Chas. Jenkins, J. B. Edwards, Jessie Whitten, Julian Bruce, Jerome Beck of Anderson.

ENJOYABLE REUNION.

Held at Mr. and Mrs. Robert Campbell's Recently.

I have just returned from another reunion at Mr. Robert Campbell's, of his children and grandchildren. All seemed to enjoy the day and everything passed off lovely. The table under the majestic oaks were richly spread with the delicacies and necessities of life. We trust that if it is the will and purpose of God, that we may be permitted to enjoy another occasion twelve months hence.

Hudson Maxim, Inventor.

In 1896 he erected a dynamite and smokeless powder mill at Maxim, New Jersey, where he developed and manufactured the first smokeless powder ever produced, which was later on adopted by the United States Government. After exhaustive experiments in the Naval Department, Mr. Maxim sold the secret of making his high explosive maximitite to the American government. This was the first explosive to be successfully employed as a bursting charge for armor-piercing projectiles.

He is also the inventor of a detonating fuse for high explosives projectiles which has proved itself superior to all rival fuses. This has recently been adopted by our government.

He is also the inventor of a new smokeless gun powder called stabilite to which in addition to other wonderful qualities has the great advantage of being ready for use as soon as it is produced. This, in view of the fact that ordinary nitro-cellulose smokeless powder requires several months to dry, renders the stabilite of the greatest importance in the event of war.

Mr. Maxim invented another remarkable self-combustion compound which he calls motorite, is made in bars about five feet long and seven inches in diameter. These bars are then coated on the outside and forced into steel tubes and sealed. The bar is ignited on one end to which the combustion and the steam mixing produces a motive fluid which is employed to drive a turbine or other engine. Mr. Maxim considers this one of his greatest inventions. "How to Live and Enjoy Life," Eugene Christian, in National Magazine for August.

Outfitted by a Long Shot. Little Wife—Did you tell Mr. Blinks that baby had cut his first tooth? Big Hubby—It's useless; he has a hen which laid fourteen eggs in six days.—Philadelphia Ledger.

FORCES STOPPED ON ACCOUNT WET STREET

WILL RESUME WORK THIS MORNING IT IS DRY

WEST MARKET ST.

Will Nearly all Be Open to Traffic Tonight—Rain Delayed Work This Week.

The concreting forces on Calhoun street quit yesterday at noon until this morning, owing to the street in the hollow below the intersection of Fant street being too wet for the work to continue. Operations will begin this morning, it being thought that the hot sun yesterday afternoon sufficiently dried up the street.

All of the asphalt on West Market street has been placed, the forces returning to the railroad yesterday afternoon and placing the mixture at this intersection. Today the surface will be placed down.

Yesterday afternoon Supt. Crancy stated that he had planned to have the entire of West Market street open to traffic tomorrow, but owing to the rain this week, he did not think this would be possible. However, the street will be open from Peoples street on west anyway Sunday and if the surface is not finished on out to Main today it will be done Monday morning.

Sometime Monday the asphalt crew will begin laying the asphalt binder on McDuffie street. The binder will be put down for two days and then the surface will follow the next two.

WILL SPEND \$1,000 ON NEW STORE FRONT

W. H. KEESE AND COMPANY WILL HAVE REMODELING DONE

WORK BEGINS SOON

Contractor in City Yesterday—Be of Solid Plate Glass and Very Up-to-date.

Mr. Frank P. Henry, representing the Conlston Construction company of Cincinnati, O., but who has his office in Greenville, was in the city yesterday conferring with Mr. Ernest Cochran, of W. H. Keese and company, in regard to putting in an entire new front at W. H. Keese and company's jewelry store. Mr. Cochran stated yesterday that the front would be put in at a cost of from \$1,000 to \$1,200 and that work would probably begin about Sept. 1.

The plans call for a solid plate glass front, metal finish and marble bottom. It will be one of the most up-to-date store fronts that can be found anywhere in the state and will be built after the pattern of the large jewelry stores in the north.

When finished the store front will be one of the best looking in the city and will compare very favorably with those found anywhere. The glass will allow a complete view of the entire store from the front and will therefore not only be of service as a display space, but will give light to the interior, and will permit people passing to see in the room where displays will also be arranged.

Mr. Cochran also stated that it business warranted it, there would be a complete change of store fixtures after the front was remodeled.

Trading Stamps Encourage Thrift.

There never has been a convention at which so many branches of advertising activities applied for admission at one time. Notable among these was the National Premium Association, who held their convention in Chicago at the same time. The question of premiums of all kinds for the retail merchant is becoming a national wide custom. It is effective in encouraging thrift and economy among the people and concentrating the business of customers, giving the merchant an advantage of cash trade to help him with discounts, which has long been appreciated. The movement has been growing in Europe for many years, and seems to be increasing in popularity. The trading stamps and coupons are now recognized as an important branch of American advertising, touching as they do the homes of millions of people and encouraging the habit of saving. One of the most notable addresses delivered at this convention was that of Mr. George J. Caldwell, president of the Sperry & Hutchinson Company, who with his characteristic enthusiasm and virile executive ability has determined to place his business on a high level reflecting the spirit of the new "adize" ideals.—"The Adizers" at Chicago, in National Magazine for August.

A Treat Worth While.

Fondo Older—You will be five years old tomorrow, Willie, and I want to give you a real birthday treat. Tell me what you would like better than anything else. Willie, (after thinking earnestly for five minutes)—Bring me a whole box of chocolate creams, mother and ask Tommy Smith to come and watch me eat them.—Pittsburg Chronicle-Telegraph.

Of course you will find everything that you would naturally expect to find in an up-to-date Dry Goods store here; and that at prices that will save you money. These Specials are named because they are Specials, not in name only, but in fact.

Drop in and give us the chance to show our goods. We'll be glad to meet you.

Anderson Dry Goods Co.

East Side Public Square.

Came to Her Rescue

From her home in Mountain Park, Oklahoma, Mrs. O. A. Strange writes to the Pinus Laboratories:

"I am taking Fruitola and Traxo for gall-stones with good results. If it had not been that it came to my rescue, I would have been dead I am sure. I cannot say too much for Fruitola and Traxo.

Fruitola possesses properties that act directly upon the intestinal parts. It is a great system cleanser, softening the congested waste and disintegrating the hardened particles that cause so much suffering, and quickly expels the accumulation to the intense relief of the patient. Traxo is a tonic alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading druggists. In Anderson they can be obtained at Evans' Pharmacy, three stores.

VISIT TALLULAH FALLS, GA EXCURSION

Via SOUTHERN RAILWAY

Premier Carrier of the South

Friday, August 20th, 1915

The First Excursion to Tallulah Falls, Ga., the Beautiful Garden Spot of Georgia from

Greenville, Anderson, Westminster and Intermediate Points.

Denver	10:45 A. M.	2.00
Sandy Springs	11:25 A. M.	2.00
Pendleton	11:55 A. M.	1.75
Seneca	12:40 A. M.	1.50
Westminster	1:55 A. M.	1.50

Arrive Tallulah Falls 12:50 noon.

RETURNING: Special train will leave Tallulah Falls at 6:30 P. M. August 20.

Tickets will also be good returning all trains due to arrive at starting point not later than midnight of August 23rd. Except tickets will not be good from Cornelia on No. 28.

This is your first opportunity to visit Tallulah Falls and nearby points of interest such as Clayton, Mounts City and Franklin. The Falls of the Tallulah River, down the successive stages of which the waters plunge to a depth of four hundred feet in a single mile and the marvelous caverns which they have cut through the bedrock of the Georgia spur of the Blue Mountains constitute one of the scenic wonders of America. You should see the wonderful power development which does not detract from the natural scenic beauty but adds greatly to the attractiveness of the place.
